CPAP HOSE HOLDER + POUCH

Ref. 72715133

Eliminate CPAP related sleep interruptions

CPAP stands for Continuous Positive Airway Pressure and CPAP therapy is a very common treatment for those who suffer from obstructive sleep apnoea. It often involves a small machine which supplies the patient with constant and steady air pressure through a mask. As if sleep apnoea isn't bad enough on its own, the wearing of this mask can be so uncomfortable! Issues such as getting tangled in the hose, lying on it and getting it stuck can all spoil your sleep. The solution? The CPAP Hose Holder! It's been designed with you in mind to ensure that you can get a great night's sleep each and every night with no more tangled hoses waking you up! With the CPAP hose holder you can enjoy many benefits such as:

- A sturdy metal construction
- Compactly folds for storage and portability

NIGHT HEEL SOCKS

Ref. 70206133

Enhance absorption of moisturising creams and lotions to relieve rough, dry cracked heels. As you sleep, body heat helps moisturizing agents penetrate your skin leaving heels smoother and softer.

DIRECTIONS: Apply moisturising cream or lotion to heel at bedtime. Slip heel sock over the toes and forefoot until reaching the desired fit. While length of use will depend on the individual, significant reduction in dryness and / or cracking should be seen in a few days. Once a desired condition of heel is reached, use heel socks periodically as needed.

Night time Heel Socks are designed for wear at night only and should not be worn with shoes.

CONTENTS: 1 pair - **SIZE:** One size fits all.

WARNING: If you have diabetes or poor circulation consult your physician or podiatrist before using this product
